

HeatArmor® 5065

Built to handle extreme heat applications such as torch cutting, welding, and foundries, HexArmor's HeatArmor® 5065 gloves are purpose-built with industry-leading protection, fit, comfort, and longevity.

The 5065 features a combination of goatskin leather and cowhide leather exterior with our revolutionary, long-lasting HeatHide® leather treatment technology. An interior para aramid liner delivers extra heat and cut protection in 360 degrees – allowing you to switch applications without switching your gloves.

Product features

- HeatHide® technology leather treatment is ideal for extreme heat applications such as torch cutting, welding, and foundries
- Para Aramid liner provides 360° A7 cut protection (interior layer)
- Meets contact heat resistance to temperatures of 662°F on the palm
- HeatHide® cowhide leather cuff
- Made with flame-resistant materials
- 0.8mm goatskin leather palm
- HeatHide® leather patches on palm 1.5mm – 1.6mm
- Gauntlet safety cuff allows for easy removal
